

## Learning Disability Awareness

The aim of this half-day course is to enable participants to gain a better understanding of some of the issues prevalent in the lives of people with a learning disability. Participants will be aware of the discrimination that they may experience and how to recognise and address barriers to communication.

### Participants will be able to:

- Explore the impact that they may have on how Individuals experience their lives.
- Demonstrate an understanding of social and historical factors that may impact on people with a learning disability.
- Explore different communication choices to promote positive and effective communication.
- Demonstrate an awareness of current practice and policies i.e. Personalisation

This training program can be adapted to meet the needs of different groups, organisations and businesses.
